

Press Release

Louvain-la-Neuve, Belgium and Lalaye, France – September 5, 2023

MEDraysintell to Showcase its Reports at EANM in Vienna

MEDraysintell is excited to announce the upcoming release of the 10th anniversary edition of its Nuclear Medicine Report & Directory.

This milestone edition will be presented as a draft version at the MEDraysintell booth (The Belgian Pavilion, Booth 248), during the European Association of Nuclear Medicine (EANM), Vienna, Austria, September 9-13, 2023. <https://eanm23.eanm.org/>

The forthcoming 2023 edition will provide comprehensive and exhaustive review of the radiopharmaceutical sector, encompassing 1,070 products, including radionuclides, radiodiagnostic agents, and radiotherapeutics, along with in-depth profiles of 410 companies. This information is presented across three volumes (Marketed, Clinical and Early-Stage Radiopharmaceuticals), spanning more than 3,700 pages, and it includes as well over 3,600 direct web links to bibliographical references.

The final version of the Nuclear Medicine Report and Directory, Edition 2023 will be available by the end of September.

Numerous possibilities are present within the radiopharmaceutical sector. These opportunities extend beyond diagnostic radiopharmaceuticals. The pipelines for radiotherapeutic development reveal a substantial number of products that could potentially hit the market by 2028.

There are multiple openings for larger corporations or investors to fund these developments and potentially collaborate with strategic partners through M&A.

We look forward to seeing you in Vienna!

About MEDraysintell

MEDraysintell is a team of international experts providing first-rate strategic intelligence in nuclear medicine, cyclotron, proton therapy and brachytherapy. We offer the most comprehensive set of reports and directories, with almost 4,900 pages of unrivaled intelligence covering some of the most exciting healthcare technologies using radiation for diagnosis and treatment. We offer client-specific intelligence in the field of radiation healthcare, with the utmost knowledge leveraging our extended network of worldwide contacts.

We are proud to support numerous companies globally, helping them to better understand the markets, the competitive environment as well as the potential of merger and acquisitions (M&A) and technology development. We have repeated satisfied clients operating in the field of medical radiation, investment banks and institutional investors, large international consulting firms and university research laboratories.

MEDraysintell was created in 2013 by Paul-Emmanuel Goethals and Richard Zimmermann. The team brings together more than 50 years of expertise in the field of radiation healthcare. www.medraysintell.com
